

Made possible with the support of City of Victoria Cultural Infrastructure Grant, the Bayanihan Community Center will soon become a cultural arts studio. This development is in line with the society's mission to promote and celebrate Filipino culture, social values, and traditions and share these with all the members of the community whether of Filipino and non-Filipino ancestry.

While the centre has not fully resumed its programs and services due to covid-19, it has taken advantage of the time to make a significant upgrade to the two-story building to be able to serve the Filipino Canadian community better.

Stay tuned for more updates!
